Reporting Guidance for “Early” Graduates

Students should not be exited on RT/EM with code 34 (Early Graduate) unless they have met ALL graduation requirements, including passing the Graduation Qualifying Exams, or meeting a Graduation Pathway.

Students who have completed their credit requirements only and are no longer enrolled and attending are not considered early graduates. These students would be considered dropouts since they are no longer attending classes and have not completed all their graduation requirements. These students should be exited on RT/EM with an appropriate dropout exit code until they have completed their Graduation Qualifying Exams (GQE) or Graduation Pathway. Upon completion of the GQE or Pathway the exit code may then be updated to code 34 (Early Graduate).

Students no longer enrolled and attending but still need to be available in TIDE for ISTEP+ Grade 10 re-test must be provided to the department. Please contact the Office of Student Assessments at inassessments@doe.in.gov for assistance in providing the required information needed.
